RADIO-PRESS RELEASE

The Minister of Forests and Wildlife hereby wishes to remind economic operators in the timber Sector, users of the second generation Computerized Forest Information Management System (SIGIF 2), that the creation and management of user sub-accounts for their companies is under their full responsibility. To this end, they can therefore activate, deactivate and reset them according to their needs.

The Ministry of Forests and Wildlife cannot, as is the case for all data created by companies, make any modification (activation, deactivation and reset) on these sub-accounts.

The Minister of Forests and Wildlife urges economic operators to be more careful in the management of sub-accounts created for their staff and partners, while recalling that they are free to seize the competent courts in the event of a dispute.

Jules Dorel Ndongo
